

Network Notification

Notice Date: February 25, 2026
To: Mississippi TrueCare Providers
From: TrueCare
Subject: It's Patient Experience Survey Season!

Summary

The Consumer Assessment of Healthcare Providers and Systems (CAHPS®) and Qualified Health Plan Enrollee Experience (QHPEE) surveys begin reaching TrueCare™ patients in February and March. Patients can respond to the survey through the end of May 2026. Your interactions with TrueCare patients have a big impact on how they may respond to these surveys.

Through our partnership, we can fulfill our joint commitment to delivering a positive patient experience. There are seven key areas in the patient experience survey that involve the care provider directly:

1. Helping patients obtain appointments with ease
2. Offering flexible care options
3. Minimizing patient wait times
4. Ensuring readiness to deliver needed care
5. Communicating with empathy
6. Empowering patients with helpful information
7. Providing courteous and timely follow-up care

Impact

TrueCare members' interactions with their providers have a direct influence on how they respond to the CAHPS and other patient experience surveys. Providers treating patients with a high degree of perceived quality in the areas addressed in these resources can make a difference on the health plan's CAHPS scores and STARS Ratings.

Importance

This information is intended to help in strengthening our partnership as care providers and instill quality in every patient interaction.
